Objectives for the Syllabus of Additional English of BCU

Under the auspices of the Bangalore Central University, we offer Additional English paper as a second language paper to the students coming from various corners of the country and outside it. This paper is available to those who are unable to take up any other second language papers offered by the college/ university. Considering the ethnic and linguistic diversities of the students taking up this paper, the design is to capture multiple sensibilities from different cultures, through texts in translation or texts by the regional writers in English. The objectives of the present syllabus are as follows:

- i) To introduce the Indian regional writings
- ii) To understand the salient aspects of the study of various regional ethos
- iii) To put forward the need to absorb the diversity of cultures
- iv) To foster and develop a greater holistic perspective of culture, growing out of one's local cocoon
- v) To sharpen the language skills such as reading and writing
- vi) To enhance the right usage of vocabulary

Hope this syllabus serves the purpose of introducing the plethora of Indian literature to the students of Additional English.
